### Notes

1. Refer to the specific literature for an award, as issued by the Sponsor Council, to ensure that all requirements are properly met. Hike Aid 6, "High Adventure Awards Program", contains a complete discussion of the requirements for all of the awards sponsored by the LAAC.
2. HAT approved conservation work hours may not be used to qualify the person for more than one HAT award, excepting on concurrent and cumulative hour awards.
3. Hours performed to meet the advancement requirements for Star, Life, and Eagle ranks may not be used to also qualify the person for a High Adventure conservation award, and vice versa. However, all other persons who work on an Eagle Project may receive conservation award credit for the time.
