For two reasons the above-mentioned training is being postponed, till hopefully next fall. Reason 1: is that we lost our COPE/Climbing Program Manager, which required our current course to be reevaluated upon appointment of a new Program manager. Reason 2: Is due to changes in National Policy on how COPE and Climbing Instructor Trainings will be conducted.

The Council's COPE/Climbing Committee will be using this spring to review our training course, adjust it to meet any changes in National Standards. As well as put us in a position to meet the new National Standards being published in the near future.

If you were do to recert this spring, contact me by email,osedson1@roadrunner.com, to check and see if we will be able to hold a recert class.
