OVERVIEW: The seminar is conducted as a series of presentations and demonstrations. The emphasis is on preparing for, and dealing with, a mountainous winter environment, be it rain, cold, snow, or some combination. Sessions cover: the physical demands of winter conditions; snow travel hazards & equipment needs; health & safety; navigation and route finding; menus; food & water needs; and personal clothing & equipment. The desirability of having a "Plan B" and the necessity of providing for unexpected changes in the weather or trail conditions are explained. Participants are invited to attend the Snow and Ice Travel seminar that follows it (see the separate training bulletin). The weekend field trip provides the opportunity to demonstrate the specific skills taught in the seminar in a winter environment. It will be a backpack in Mt. San Jacinto State Park of about 5 miles, round trip, from 8,600 to 10,000 feet. Snowshoes will be worn while backpacking.

REQUIREMENTS: Completion of Adult Leader Backpack Training is highly recommended. Annual Health and Medical Record (parts A, B, and C).

Winter brings a special stillness to the local mountains. The year-round camper knows that the pests of summer – insects, most animals, other people – have gone to ground for the season. While the snowy peaks may appear close and inviting, that same camper knows that the weather and trail conditions require special preparation, skills, and equipment.

A syllabus that covers the materials discussed will be given to each participant.
